2nd Grade Girls News

The girls in Mrs. Leonard's 2G are thankful for family, friends, Hashem, for their health, their pets, teachers and of course Arie Crown!

Walder Science News

The Walder Science Action-Reaction workshop allowed our 3rd and 4th graders to delve into Newton's Third Law of Motion: "For every action there is an equal and opposite reaction." In other words, if object #1 exerts a force on object #2, object #2 also exerts an equal and opposite force on object #1. This principle is observed in propelling rockets, jumping, a car accelerating, garden sprinklers, and many more everyday occurrences. To demonstrate this law, students made cars and spinning balloons propelled by air moving in one direction and the car or balloon moving in the opposite direction. Students also saw firsthand that when a car moves forward the wheels push backwards on the ground. They also experimented with marble propelled cars that move in the opposite direction to a rolling marble. The students loved learning about Newton's Third Law of Motion.

Thanks to Walder Science for bringing such an exciting workshop on air pressure to our 5th and 6th graders! They learned that air pressure is caused by the weight of air pressing down on us and other objects. The following concepts were explored with hands-on experiments and demonstrations:

- Air pressure increases as temperature increases.
- Air pressure decreases as temperature decreases.
- Air always moves from high pressure to low pressure.

Interactive experiments involving self-inflating balloons, soda can crushers, mechanical lungs, and "not-so-empty" containers were performed to reinforce the above concepts.

6th Grade Girls News

The sixth grade girls continue to grow and progress! The girls completed the first pages of their 39 Melachos Scrapbook - you can see them working on it in the pictures below . The Scrapbook makes the Melachos truly come alive ! We celebrated a Siyum on Parshas Bamidbar and are well into Parshas Nasso. Check out our colorful bulletin boards on Chanukah which help us get into the spirit of Chanukah.

6th Grade Boys News

Mazel Tov to Rabbi Litwack's 6th grade shiur on being Mesayaim the Sugya of "Yeiush Shelo Mida'as"! The outstanding Talmidim enjoyed a well deserved Siyum breakfast! Keep Shteiging!

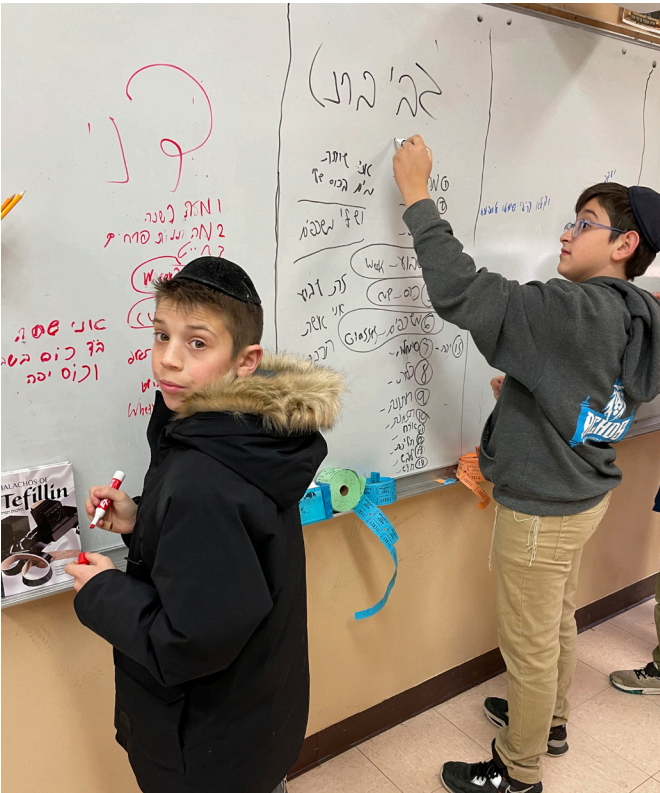

3rd Grade Girls News

Yesterday, we did the anti-bully activity where you crumple paper and try to make it go back to its original state. You also apologize to the paper. The message is that the same principle applies to people. When a person is bullied or teased the impact is long term even if the person is given heartfelt apologies. We paired that with learning about kind compliments (warm fuzzies) and unkind compliments (cold pricklies). During class on Wednesday, the girls wore their warm fuzzy pom and gave out warm fuzzies to peers. If they said a cold prickly to someone, they owed them three warm fuzzies. In the end, we want to end up spreading more kindness than negativity.

Middos Matter News

Arie Crown's Middos Matter school-wide initiative is continuing strong! "Be Respectful, Be Responsible, Be Safe, Be Kind" are our schoolwide expectations.

***** MIDDOS MATTER ALL STARS!! *****

As part of our Middos Matter program, teachers have been giving Middos Matter points for students who have demonstrated their Respectful, Responsible, Safe and Kind behaviors around school. Every week, we recognize the students who have earned the most points in each class that week and they each receive a small prize.

Congratulations to the winners from last week!

PRE-NURSERY

NURSERY

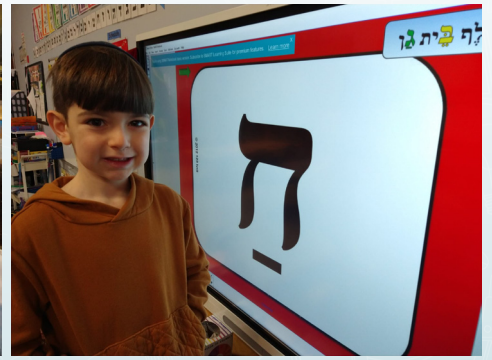

KINDERGARTEN

The Silver Room Yeladim became scientists this week as they attempted to turn several small stones into one large stone, just like in the Parsha! The Yeladim also began learning about Chanukah! They enjoyed creating colorful Chanukah decorations for the classroom and acting out parts of the Chanukah story!

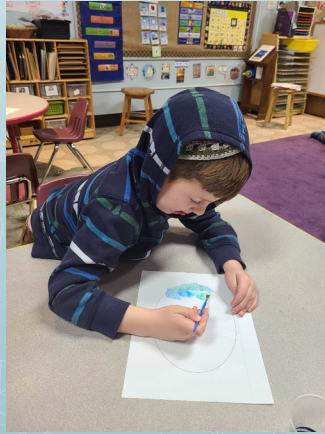

This week in Stay and Play we explored all types of instruments! We discussed the difference between string, wind, and percussion instruments and even went to the Music Room to use all of the different types of instruments we have in school. Our favorite part of the week was when we all got to bring in our own instruments from home and created an orchestra using them!

The Kindergarten classes are learning the letter n just in time for מנוחה!

Up and down Malachim went, to watch Yaakov they were sent!

The Kindergarten Yeladim created their own oceans while learning the letter O. They enjoyed some creative building and play time while expanding their minds during center time in the classroom.

Have a Good Shabbos!
