# REACH PRESENTS: PARENTING WITH THE CPS APPROACH

Collaborative Problem Solving® (CPS) promotes the perspective that when kids exhibit challenging behaviors, they don't lack the will to behave well, they lack the skills to behave well. CPS is designed to cultivate skills like flexibility, frustration tolerance and problem solving, rather than motivating kids with rewards and punishments. This proven approach reduces challenging behaviors, equips children with necessary skills, and fosters positive relationships with the adults in their lives.
