news

4TH GRADE GIRLS *news*

Complete Sentences, Complete Success! This week, the fourth grade girls learned what makes a sentence complete. They now understand that a full sentence must have two key parts: a subject (who or what the sentence is about) and a predicate (what that who or what is doing). To show off their knowledge, the girls created their own subjects and predicates on our bulletin board, and their work was thoughtful, clever, and maybe even too funny for bulletin board status. From serious to silly, these sentence starters and finishers were a perfect way to put their grammar skills to work. The girls are clearly off to a strong and confident start in fourth grade!

8th grade girls doing chazarah for their test!

8TH GRADE GIRLS *news*

5TH GRADE GIRLS *news*

This week in 5th Grade, in Mrs. Schur's class, we learned that we are not allowed to be Mekabel Lashon Hara. In Mrs. Turoff's class we learned about Akeidas Yitzchak, and in Miss Feldman's class we got ready for Rosh Hashana by putting a bookmark in our Machzor to help us find the right page! In Mrs. Spiliopolous's class we watched a cool science video called "What is Science?". In Mrs. Kalish's class we started our essay, and had an AMAZING time at gym. We have had an AWESOME two weeks of school.

By: Na'ama Barnett and Tali Cohen

8TH GRADE GIRLS *news*

This year we have a new program where 8th grade girls are matched up with new students. The purpose is to help new students' transition to Arie Crown with a friendly upper classmate. Our first activity was Wednesday, "Getting to know each other". There will be a few more activities through out the year, planned by our terrific 8th graders.

7TH GRADE GIRLS *news*

Did you know that a fresh warm piece of potato kugel could change someone's life? The 7th grade Moros uplifted their students with a very special activity for Chodesh Elul. The girls heard a true story shared by Rabbi Wallerstein zt"l titled "To Keep a Promise", involving a priest, potato kugel, a promise and a Jewish boy who was in Catholic school, where he learned the Alef Bais and Chumash from the priest and was sent by the priest to a Yeshiva, where the boy ultimately became a Rabbi and today is very involved in Kiruv work!

Each girl then received her very own pictorial bee on which she wrote which middos character traits she wants to work on this year. They want to "Bee" many fabulous things: patient, compassionate, organized and determined students. We finished the activity by having a warm piece of potato kugel. Everyone truly enjoyed and we look forward to future fun learning experiences.

6TH GRADE GIRLS *news*

The 6th grade girls are very excited for Tech in Check 2.0!

Boys'

Division News

8TH GRADE BOYS news

Our 8th grade boys came back to school after the first day to participate in a 'Pesichas HaZ'man' shmooze from Rabbi Samber. They then did a special activity, writing letters to themselves and putting them in a "time capsule". The evening finished with a delicious cholent prepared by MasterChef cholent champion, Rabbi Yosef Cohen.

2ND GRADE BOYS news

The boys in Miss Abrams' second grade class have had an incredible start to the year! After reading the book, "This is the Way We Go to School", each boy colored in a picture of a bus or car, to show how they go home from school. We then created a picture graph on the board and used a tally chart to see which way was used more in our classroom!

2ND GRADE BOYS news

Miss Schwartz's 2nd grade boys enjoying their first Mystery Science lesson.

2ND GRADE BOYS *news*

The 2nd grade boys enjoying being back in art class with Mrs. Bleichman, our talented art teacher.

7TH GRADE BOYS *news*

Rabbi Riesel brought in a bottle of wine that he got from a farmer in Israel. Since he was not sure whether the farmer had separated Terumos and Maasros, he showed our Talmidim how to do this and now can make Kiddush on this special wine on Shabbos!

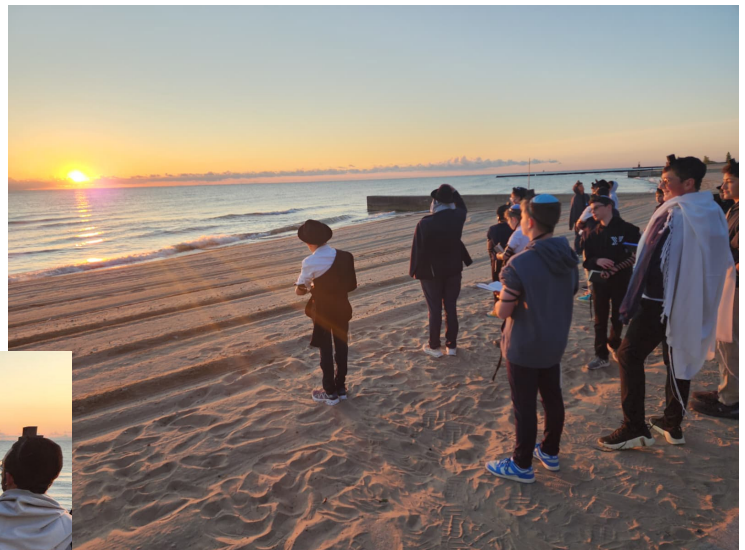

5TH - 8TH GRADE *news*

5th -8th grade boys Mishmar began this week!

8TH GRADE BOYS *news*

On the first day of Sunday school, the 8th grade boys davened during sunrise at the beach!

PRE-NURSERY
NURSERY
KINDERGARTEN

Yeshivat Katanote

PRE-NURSERY

The Pre Nursery Yeladim are having a sweet new year! We're busy preparing for Rosh Hashanah with so many fun activities.

STAY & PLAY

This week in Nursery Stay and Play we learned about teeth. We discussed different ways to keep our teeth healthy- like eating fruits and vegetables, brushing our teeth for 2 minutes in the morning and night, and flossing. We did an experiment with an egg and put one egg into vinegar and one egg into Coke. After a few days we took the eggs out and noticed that the egg with Coke turned the shell brown and was very hard to brush away. The egg with vinegar took away the hard shell and the egg was left bouncy! It showed us that if we don't take care of our teeth we can ruin our enamel! We enjoyed brushing teeth with minty toothpaste and paint, brushing plaque off plastic teeth, and playing with minty shaving cream while trying to find the hidden floss!

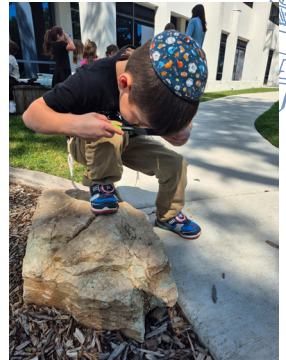

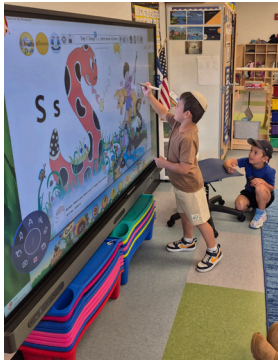

KINDERGARTEN

The Kindergarten children have been learning about the Shofar. They had a chance to try out a real one, and had a Shofar snack too! Most importantly, they can tell you the message of the Shofar on Rosh Hashanah.

KINDERGARTEN

Kindergarten is off to a great start! We learned our first letter in Jolly Phonics-the letter /S/. The students learned to write the letter in several ways including writing in sand. Making a spiral snake was a fun way to practice our fine motor skills. We were also very excited this week to begin learning about science and what a scientist does. Our mini scientists enjoyed using our outdoor science box filled with binoculars and magnifying glasses to explore the woods area of our playground. We can't wait to learn more next week!

HAVE A GOOD SHABBOS!!

ידיעות התורה

Submitted by Rabbi Nosson Raiz, 3rd grade Rebbe, member Kollel Mechanchim Ateres Avraham

"Uva'u Alecha Kol HaBerachos HaEleh VeHisigucha Ki Sishma BeKol Hashem Elokecha"

"All these blessings will come upon you and overtake you if you obey Hashem, your G-d." (Devarim 28:2)

The Torah tells us that blessings come not only when we listen to Hashem, but when we allow ourselves to be "overtaken" by them. Rabbi Yaakov Galinsky explains that this means a person must remain the same—grounded and humble—whether he is poor or wealthy, honored or simple. Blessings are meant to elevate us, but they should never change who we are at our core.

The Rebbe of Peshischa points out that in the geulah blessing of Shemoneh Esrei we praise Hashem as "Great and Awesome, who humbles the haughty and elevates the lowly." Life can feel like a pendulum—sometimes we are raised up, sometimes brought down. Why is that? The Peshischa explains that this cycle only happens when a person becomes arrogant in success. If one remains humble, Hashem allows the blessing to endure. As Chazal teach (Megillah), when Hashem grants greatness, He intends it for generations—unless arrogance causes it to be taken away.

Rabbi Galinsky illustrates this with the story of a pauper in Russia who won the lottery. When the news was delivered late at night, he angrily declared, "Until now I was a poor wretch, but now I am the wealthiest man in town! How dare you disturb me?" His arrogance showed that wealth alone doesn't change a person.

True dignity comes only through humility. A humble person's worth remains steady, allowing him to live with peace in both blessing and challenge.

THE ARIE CROWN FAMILY WOULD LIKE TO EXTEND A *mazel tov* TO:

Births:

*Rabbi and Mrs. Yoni and Hinda (class of '08) Kram on the birth of a son. Mazel Tov to the grandparents, Mr. and Mrs. Jeff and Lori Friedman.

*Mr. and Mrs. Chaim and Jenny Edell on the birth of a son.

*Mr. and Mrs. Chaim (class of '11) and Naomi Gertsberg on the birth of a son. Mazel Tov to the grandparents, Mr. and Mrs. Yakov and Sara Leah Gertsberg and to the great-grandparents, Mr. and Mrs. Ben and Raisa Gertsberg.

*Our beloved Rebbe, Rabbi and Mrs. Nosson and Tzippy Raiz on the birth of a daughter.

*Our beloved Rebbe, Rabbi and Mrs. Yosef and Basya Cohen on the birth of a grandson, born to Eliyahu and Hadassa Cohen.

*Our beloved Rebbe, Rabbi and Mrs. Yaakov (class of '05) and Racheli (class of '04) Roth on the birth of a daughter. Mazel Tov to the grandparents, Board of Trustees Member, Mr. and Mrs. Leonard (class of '80) and Jessica Weiss and Mr. and Mrs. Daniel and Julia Roth.

Bar/Bas Mitzvahs:

*Mr. and Mrs. Eli and Baila Berkovich on the Bar Mitzvah of their son, Zevy. Mazel tov to the grandparents, Dr. and Mrs. Michael and Basya Schwarcz and Mrs. Estella Berkovich.

*Mr. and Mrs. Nochum and Yochie (class of '92) Lerman on the Bas Mitzvah of their daughter, Kayla. Mazel Tov to the grandparents, Mr. and Mrs. Michael and Mimi Lerman and Dr. and Mrs. Irving and Eleanor Birnbaum.

Engagements/Marriages:

Rabbi and Mrs. Mayer Yehuda and our beloved Morah, Roni (class of '80) Lichtman on the marriage of their daughter, Malky (class of '18) to Moishy Weiner. Mazel tov to the grandmother, Mrs. Phyllis Reifer.

*Mr. and Mrs. Yitzchok and Elisha Brandes on the engagement of their daughter, Tova (class of '18) to Yamin Elkaim. Mazel Tov to the grandparents, Dr. and Mrs. Avraham and Sarah Brandes.

LOW ENROLLMENT - REFUNDS WILL BE GIVEN**

AFTER-SCHOOL CLUB DESCRIPTIONS

Art with Ms. O

Do you like to doodle, stretch the imagination, and make crafts? For one hour each week the students will have the opportunity to explore their creativity and talents in the Art Club! It is a great place to meet like-minded artists your age and get a chance to focus on projects that are an extension or beyond their regular art class!

Ballet with Danceworks (Minimum 10 girls)

A structured lesson focused on classical dance technique, emphasizing strength, flexibility, posture, and coordination through a combination of barre and center exercises. Classes follow a specific format, usually starting with exercises at the barre to warm up and build technique, followed by complex movements in the center, and often finishing with a "reverence". Dancers learn foundational movements, ballet terminology, proper body alignment, and the distinctive "turnout" of the legs, which helps foster grace, discipline, and a strong dance foundation for other styles.

Hip Hop with Danceworks (Minimum 10 girls)

Classes focus on coordination, body isolations, rhythmic movement, and stamina, usually set to contemporary hip hop and pop music. Beyond technique, a hip hop class encourages creative expression, improvisation (freestyle), confidence-building, and performance skills.

Battle of the Books with Mrs. DeAngelis

Battle of the Books Club is a read-aloud session for fifth grade girls. We will be reading titles from the official Battle of the Books list. While listening, girls may doodle, color, or eat a snack as they enjoy the story. Our first selection will be *The Wolves of Willoughby Chase*. After we finish the novel, we'll write the required log together, and then choose our next Battle of the Books selection. This club is a great way to relax at the end of the day and enjoy listening to a good book, while also helping to complete another book from the list. At the same time, it offers a wonderful opportunity to prepare for the Battle of the Books competition.

Guitar with Mrs. Keener (Minimum 5 Girls) - MUST PROVIDE YOUR OWN ACOUSTIC GUITAR

Calling all 7th and 8th grade girls with a love for music! This fun and supportive class is designed to introduce the basics of acoustic guitar. Students will learn chords, strumming patterns, and simple songs while building confidence and creativity. No prior experience needed! Students must provide their own acoustic guitar. If you'd like guidance on purchasing a beginner-friendly instrument, information will be available.

Yoga with Ms. Kessel (Minimum 5 Girls, Maximum 16 Girls) No class 11/26 or 1/21

After a long day working hard, come join me for a relaxing and productive class! We will start by unwinding from our day, and unwind our bodies with stretching. We will focus on topics that can help the girls cope, thrive, and feel successful, in and out of the classroom. Each week we will tackle a new topic- friendships, homework, family, peer pressures, setting goals, and more! We will learn how to take better care of ourselves, from the inside out. It's hard work to be a teen, a tween, and girls this age feel stress differently. The girls will learn valuable strategies and tools to help them feel grounded, calm, and strong. Yoga mats will be provided.

Paint Pouring with Mrs. Miller

"The Art of Paint Pouring" Paint pouring is the artistic technique of combining acrylic paint and a pouring medium to increase the fluidity of the paint. After combining a variety of mediums and acrylic paint, we will pour the mixture over canvases and other surfaces and manipulate the flow to create unique patterns and designs.

Basketball Skills with Mrs. Sweet

Learn/review basic rules and skills of basketball such as passing, dribbling, shooting, and overall defensive playing. Focus will be to have fun, develop team skills and sportsmanship, and improve basketball skills.

Beginning Tumbling and Gymnastics

An introduction to tumbling and gymnastics with a focus on flexibility, coordination, strength and body awareness. This is NOT for experienced gymnasts.

Sports of all Sorts with Mrs. Jedd

An introduction to tumbling and gymnastics with a focus on flexibility, coordination, strength and body awareness. This is NOT for experienced gymnasts.

Healthy Snacks with Mrs. Chinn

Come join Mrs. Chinn, 4th grade teacher and Integrative nutrition coach, in creating delicious, beautiful, and healthy after-school snacks while learning about the science of nutrition and how our bodies work! Please note this club is not allergy friendly. If your child has any food allergies, we cannot guarantee that allergens will not be present.

Shark Tank Project Pioneer with Nexlore

Turn your big ideas into reality in this fast-paced, hands-on entrepreneurship course inspired by the hit show Shark Tank! Students will think like real business owners—brainstorming innovative products, building prototypes, learning how money works, creating eye-catching ads, and crafting persuasive pitches. Along the way, they'll develop problem-solving, teamwork, and public speaking skills. Focused on fun challenges like the Pringle Drop and Tower Build. The course ends with our very own "Shark Tank" event, where students present their business ideas to a panel of "investors" (parents and classmates) in a high-energy finale.

Music x Gaming Club: Make Music Through Games

Ever imagined your child writing a song just for you? Our program, backed by research from Northwestern, UChicago, Columbia, NYU, and DePaul, helps kids build confidence, teamwork, and a genuine love for making music (Website: <https://www.overture.games/>). Founded by Aspen and Steven — featured in Forbes 30 Under 30, Entrepreneur Magazine, and Chicago Tribune — and led by certified musicians, we're on a mission to make learning music fun!

Homework Club with Mrs. Whisler (Minimum 10 Per Class)

Get your homework done after school in a relaxed, supervised and supported way. Assistance in all General Studies areas available from Mrs. Whisler; students may work independently or in small groups on their Judaic Studies homework, as well. Attendance will be taken. Your child is welcome to "drop in"; however, there are no refunds for missed days.

Martial Arts with Nexlore

This martial arts course empowers students with confidence and discipline. Students develop cool techniques, build super strength, and make friends while they train in a safe, and structured environment. They will have a blast mastering martial arts moves that improve their flexibility, health, and ability to focus. Expert instructors blend fun and discipline, teaching strength and self-control through carefully-designed and engaging exercises.

Stem with Mr. Burke - Two Sessions a Week

Interested in robotics, engineering and science? Join STEM club with Mr. Burke, where we'll be using the Arduino electronics kit to build, play with, and optimize a range of fun projects like a musical keyboard, light theremin, IoT smart thermometer, and whatever else sparks your creativity! Through the process of building circuits and coding the motherboard instructions, we'll learn a lot about the fundamentals of engineering, electricity, and coding! It's gonna be a blast! The supply cost is \$60 and covers the cost of the Elegoo brand complete starter set for Arduino robotics. Students will be able to keep their kits after the club to make and remake whatever they want!

Soccer with Yarin Hayohamo (Minimum 16 Boys)

This program offers a one hour soccer session run by an experienced soccer coach. The session begins with a warm up and then breaking off into two teams and playing a formal game of soccer.

Chess Chevra (Minimum 8 Boys, Maximum 12 Boys)

Chess Chevra works with 20+ yeshivas, day schools, JCC's, and Jewish summer camps around the world. We are excited to be offering after school chess clubs at Arie Crown this school year! Our program includes instruction on chess strategy, playing with classmates while getting guidance from a coach, and tournaments with trophies and medals for top place winners. Watch our 1-minute video (https://www.youtube.com/watch?v=ed_MtsGN5gY), read a Mispacha article (<https://mishpacha.com/winning-moves/>), or listen to our story on Chinuch Today (<https://creators.spotify.com/pod/profile/yerachmiel-garfield/episodes/3-7-Josh-Bowman--Chess-Chevra-e2rrcn4>) to learn more. Reach us at info@chesschevra.com

Self Defense with StandStrong

The StandStrong Self-Defense program will teach real self-defense techniques to escape and evade from the most common street attacks. Our highly qualified MMA instructors deliver classes that are fun, build teamwork and boost self-esteem. All While teaching you how to be safe and alert out in the real world.

Basketball Skills with Camp Chai Leagues (Minimum 10 Boys)

Basketball skills works on mastering fundamental actions such as dribbling, shooting, passing, rebounding, and defense, along with crucial supporting abilities like footwork, ball handling, and court awareness.

Circuit Training with Camp Chai Leagues (Minimum 10 Boys)

A high-energy, music-filled program designed to keep kids moving, smiling, and building healthy habits. Every session combines fitness, teamwork, and fun so kids have a great time while staying active.

FALL SUNDAY PROGRAMS

SEP 14 - JAN 4

JUNIOR MATH BUILDERS

GRADES N-K

**SUN, 11:15 AM-12:15 PM
& 3:00-4:00 PM**

Discover the world of math, while developing number skills through hands-on projects and games.

YOUNG MATH BUILDERS

GRADES 1-2

**GIRLS SUN, 11:15 AM-12:15 PM
BOYS SUN, 3:00-4:00 PM**

Build addition and subtraction skills through hands-on projects, games, and real-life problem solving.

ADVANCED MATH BUILDERS

GRADES 3-4

**GIRLS SUN, 11:15 AM-12:15 PM
BOYS SUN, 1:45-2:45 PM**

Build, explore, and experiment with a variety of multiplication & division games, activities, and challenges.

JUNIOR SCIENCE EXPLORERS

GRADES N-K

**SUN, 10:00-11:00 AM,
12:30-1:30 PM, & 1:45-2:45 PM**

Introduce young minds to the excitement of science, while developing critical thinking skills and curiosity.

YOUNG SCIENCE EXPLORERS

GRADES 1-2

**GIRLS SUN, 10:00-11:00 AM
BOYS SUN, 1:45-2:45 PM**

Fuse fun and learning with a wide range of engaging topics and experiments in our real science lab.

ADVANCED SCIENCE EXPLORERS

GRADES 3-4

**GIRLS SUN, 10:00-11:00 AM
BOYS SUN, 3:00-4:00 PM**

Make amazing science discoveries at a new level, encompassing a breadth of mind-blowing concepts.

LIFECYCLES GRADES 5-8

GIRLS SUN, 12:30-1:30 PM BOYS SUN, 4:15-5:15 PM
Explore habitats, diet and behaviors of small, burrowing mammals and build mazes to examine their cognitive abilities.

SIGN UP TODAY!

LOCATION
